September 16, 2004

MEMORANDUM TO: Write Your Own (WYO) Principal Coordinators and NFIP Servicing Agent for Dissemination to All Claims Managers

FROM: James S.P. Shortley, Director of Claims Claims Section, Risk Insurance Branch Mitigation Division

SUBJECT: Substantially Damaged Structures

On September 15, 2004, and continuing, Hurricane Ivan caused moderate to extensive damage to residential and commercial properties in the states of Alabama, Florida, Louisiana, and Mississippi. Early reports indicate that substantially damaged property may result. Please ensure that your claims adjusters follow the guidelines below. Their cooperation will help expedite the community officials’ determination of substantially damaged buildings.

- It is mandatory for adjusters to continue to report the statistics promptly.
- After conducting the inspection of the building and identifying it as meeting the criteria for substantial damage, the adjuster is required to enter the information for that building on the attached “Adjuster Preliminary Damage Assessment” form. The form will continue to be used to capture critical information during the adjustment phase.
- Even though the form allows entries for two separate policies, adjusters should not hold the form while awaiting additional or final claims information. The form must be submitted to the NFIP Bureau and Statistical Agent as soon as the information is complete for a single policy.
- Adjusters are required to submit daily reports of substantially damaged properties to the NFIP Bureau, by fax at 1-800-457-4232 or by mail to P.O. Box 310, Lanham, MD 20706.
- The Bureau will ensure that the information is given to FEMA and local community officials.

We recognize the tremendous job that community officials have in handling the substantial damage issue. In many instances, they must survey widespread areas of damage with limited resources. However, by observing the guidelines above, adjusters can help us provide community officials with timely, accurate information that will allow them to make expeditious determinations of substantially damaged buildings.

We ask for your full support. If there are any questions, please let me know.

Enclosure

cc: Vendors, IBHS, and Government Technical Representative

Required Routing: Claims and Underwriting
ADJUSTER PRELIMINARY DAMAGE ASSESSMENT

WYO Company: __________________________________________ Date of Loss: ________________

Adjuster: ____________________________________ FICO Number: ________________________________

This form is to be used for advisory purposes in helping FEMA and communities identify potential substantially damaged buildings. The adjuster will use "replacement cost" when completing this form; however, the community is required under the National Flood Insurance Program to use "market value" in determining substantial damage.

PLEASE PRINT LEGIBLY

Policyholder: __________________________ Policy Number: __________________________

Property Address: (include state and ZIP Code)
________________________________________________________________________________
________________________________________________________________________________
** Probable Repair Cost _________________________
Building Replacement Cost Value: $ ______________
Building Actual Cash Value: $ ______________
