Application of Post-Wildfire Exception to 30-Day Waiting Period for New Policies

In general, new policies for flood insurance become effective following a 30-day waiting period. However, the Biggert-Waters Flood Insurance Reform Act of 2012 provided an additional exception to this requirement related to flooding caused by post-wildfire conditions, referred to as the Post-Wildfire Exception. Under the Post-Wildfire Exception, the standard 30-day waiting period does not apply to new policies if:
(1) The covered property experiences damage caused by flood that originated on Federal land;
(2) Post-wildfire conditions on Federal lands caused or worsened the flooding; and
(3) The policyholder purchased the policy either:
   (i) Before the fire containment date; or
   (ii) During the 60-calendar-day period following the fire containment date.

For the purposes of the Post-Wildfire Exception, the Federal Agency responsible for the land on which the post-wildfire conditions existed determines the fire containment date.

Where a policyholder meets the requirements of the Post-Wildfire Exception, WYO Companies and NFIP Direct must make the policy effective at 12:01 a.m. (local time) on the date of the flood loss qualifying for the exception. Once the policy is made effective, WYO Companies and NFIP Direct

must adjust and pay claims in accordance with the Standard Flood Insurance Policy, including provisions governing a flood in progress and requiring that a flood occurs after the purchase of the policy.

**Assistance with the Proper Application of Post-Wildfire Exception**

FEMA supports the application of the Post-Wildfire Exception by tracking containment dates for wildfires occurring on Federal lands and consulting when necessary with appropriate Federal agencies to determine whether post-wildfire conditions caused or exacerbated a flood. WYO Companies and NFIP Direct may request assistance with the proper application of the Post-Wildfire Exception by contacting FEMA-FIDClaimsMailbox@fema.dhs.gov.
